“ Mass advertising can help build brands, but authenticity is what makes them last. If people believe they share values with a company, they will stay loyal to the brand.”

- Howard Schultz,

## ABOUT US

We are a Company that specializes in general printing of office stationery. Our printing includes Graphic Design and Artwork.

We are a customer driven organisation, operating as partners to our clients. Our customer service doesn't stop with the services and products we offer. Through our innovative market - team approach we become partners in our clients development through intelligent listening. By creating sales service teams dedicated to specific markets, we are continually deepening our understanding of issues and trends that affect our clients. That knowledge allows us to ask the right questions and identify the solutions and technology that brings our clients better quality, faster turnaround and greater efficiencies.

Our greatest strength is our state-of-the-art printing, branding, binding and finishing operational equipment. This gives us an upper edge in enhancing quality and timely deliveries.

## Our VISION

We strive to deliver individualised solutions to our clients printing needs, ensuring quality service delivery.

## Our **CORE VALUES**

The 4 core values that are fundamental to our Company's success are:-

### » Commitment to our Clients:-

Our interests are aligned with our clients' strategic and long - term goals. We take your problems, needs and search for viable solutions.

### » Exceptional Customer Service:-

We know that we are only valuable if we are able to assist you. We take time to listen and understand. We ask for clarification when needed. We believe that listening lays the foundation for a perfect long - term relationship.

### » Team Work:-

Our clients benefit from the collective wisdom of the firm. No client is served without the assistance of Adroit Logistics Employees. We believe in functioning as a team to bring you fast reliable service possible in the most efficient manner.

### » Quality Assurance:-

Value is created in many ways, through quality products, effective analysis, consistent client support, on time deliveries and error free processing.
